

SOUTH OKANAGAN 9am SUNDAY MORNING 2-meter NET

This net is held under the auspices of the Penticton Amateur Radio Club using the Apex Mountain repeater on a frequency of 146.920 MHz with a minus 600 kHz offset and 123 Hz tone. We also have a UHF link on 440.600 MHz with a 123 Hz tone. The repeater is located south-west of Penticton, B.C. at an altitude of 2247 meters (7372 feet) above sea level.

Although this is a directed net, all amateurs who can reach this repeater are encouraged to check-in. We have two informal nets. One on Tuesday and another on Thursday. Tuesdays is on our IRLP repeater at 7:00PM. The Penticton IRLP frequency is 147.120 MHz with a plus 600 kHz offset and 123 Hz tone, use node 9002. The Thursday net will be held at 7:00PM on WIRES-X room 40678. There's also an in-person meeting on Sunday at 10:00AM at Wendy's in Penticton.

Your Net-controller this morning is _____, my name is _____, and my location is _____.

1. Is there any emergency or priority traffic?
2. Are there any reports of sick or injured Amateurs, or silent keys?
3. Swap and shop will be held at the end of the net. Please indicate when your name is called.
4. Your Net-controller for next week is _____.
5. Are there any net bulletins?
6. Are there any visitors or mobiles who would like to check in before getting out of range?
7. I will now take a few early check-ins for those who can't wait for the roll call.

And now the roll call (you can start anyplace and go in any order at your discretion)
